

2-WAY DIPLEXER

SC-DPLX-5G

SureCall's diplexer for traditional cellular spectrum is a frequency-selective distribution device that splits high and low frequencies through different channels back into one common port. The diplexer features N-Female connectors for 619-894 MHz and 1710-3900 MHz frequency domain multiplexing.

SPECIFICATIONS

Frequency (MHz)	617-894	1710 – 3900
Insertion Loss	≤0.5 dB	≤1.1 dB
Isolation	≥13 dB	≤19 dB
Impedance	50 Ohm	
Connector	N-Female (waterproof)	
Dimensions	3.8 x 3.5 x 0.8 in.	
Weight	9.2 oz	
Operating Temp.	-31° to +149° F	
Class of Protection	IP66
