

# SURECALL WIDE-BAND TRUCKER ANTENNA

## Part #: SC-130W

For use with SureCall Vehicle Signal Boosters

## Overview

SureCall's SC-130W is a wide-band exterior antenna designed for large trucks and vehicles. Stay connected anywhere with this 30" omni-directional antenna that is equipped with a strong base and mirror mount that can hold up in the harshest of conditions. This weather-resistant exterior antenna works with big rigs, RVs, boats and any other large vehicles in need of a boosted cellular signal.

SC-130W is compatible with SureCall vehicle signal boosters that use an outside antenna and supports all North American cell carriers.

## Features

- Designed for use with large trucks, big rigs, RVs and boats
- Omni-directional antenna captures cell signal from all directions
- 3 dBi Gain
- Wide-Band (698 - 2700 MHz)
- FME-Female connector
- Includes complete mounting kit for mirror installation

## Technical specifications

Part Number	SC-130W
Frequency	698 - 2700 MHz
Input Impedance	50 Ohm
Antenna Gain	3 dB
VSWR	≤1.8
Polarization Type	Vertical
Radiation Pattern	Omni-directional
Connector	FME-Female
Cable Type	RG-58
Cable O.D.	5.0 mm
Height	30"
Weight	15 oz

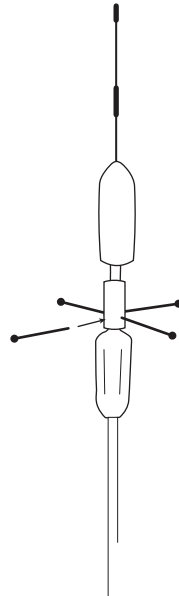

## Installation

For best results, the antenna should be mounted in an upright position on the mirror. The entire assembly can be mounted to the mirror. The antenna should be mounted with the chrome tip pointing toward the sky (perpendicular to the ground). Built-in ground plane allows for use on any surface – metal, fiberglass, wood, etc.

Complete mounting kit included.

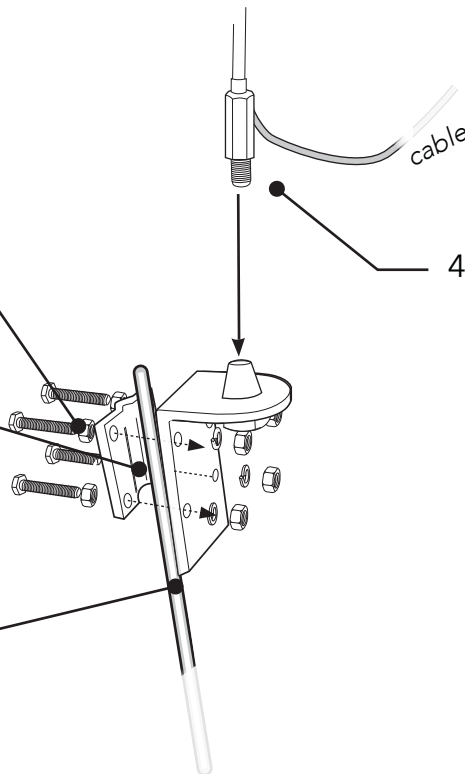

# SureCall Wide-Band Trucker Antenna

## SC-130W Installation Overview

5. Screw four pins into the corresponding holes on upper half of the antenna body

1. Loosen four mounting screws
2. Insert pole as shown or attach mounting kits on truck mirror support frame
3. Tighten all four screws in place and secure with wrench

4. Screw antenna into mounting base
